

HP LaserJet E77830Z colour A3 MFP

Premium colour value, maximum uptime, and the strongest security¹ from a smart, streamlined MFP.

The world's most secure printing ¹

- With HP Sure Start, each printer regularly checks its operating code and repairs itself from attempted hacks.
- Help protect information on the MFP and in transit over the network. Store data on the encrypted hard disk.
- Continually monitor to detect and stop attacks, then automatically reboot with run-time intrusion detection.
- Whitelisting checks firmware during startup to help ensure it's authentic, good code—digitally signed by HP.

\$20,000 instant asset write-off

Extended

The write-off threshold of \$20,000 has been extended to **30 June 2018**.

If you buy an asset and it costs less than \$20,000, you can immediately deduct the business portion in your tax return. The \$20,000 threshold applied from 12 May 2015 and will reduce to \$1,000 from 1 July 2018.

You are eligible to use simplified depreciation rules and claim the immediate deduction for the business portion of each asset (new or second hand) costing less than \$20,000 if:

- you have a turnover less than \$10 million (increased from \$2 million on 1 July 2016), and
- the asset was first used or installed ready for use in the income year you are claiming it in.

Assets that cost \$20,000 or more can't be immediately deducted. They will continue to be deducted over time using the general small business pool. You write-off the balance of this pool if the balance (before applying any other depreciation deduction) is less than \$20,000 at the end of an income year.
